

## What is CCIM?

CCIM (Certified Commercial Investment Member) is a professional real estate designation awarded to an individual who has completed extensive educational courses on various real estate topics, fulfilled a production and resume grading procedure, and passed a rigorous comprehensive examination. These individuals are recognized as the best in the business, experts in the disciplines of commercial real estate brokerage, asset management, valuation and investment analysis. There are currently only 9,000 CCIMs internationally and it is considered the "Ph.D." of commercial real estate.

The Central Texas CCIM Chapter currently consists of CCIM Designees, CCIM Candidates, and Affiliate members. The Chapter serves as a focal point where members can exchange ideas, properties, and help each other solve real estate problems. The Chapter also serves as a means to exchange information about real estate prospect needs, both locally and nationally.

The Chapter sponsors monthly membership programs with attendance of approximately 100 plus real estate professionals. We also feature many other special networking events such as the lenders boat trip, property marketing session, MCE courses and more.
